Maxillofacial Prosthodontist

## **Salt Water Rinse Guidelines**

Salt water rinses should be used to promote healing.

Mix 1 teaspoon of salt with 8 oz. of warm water.

Rinse for 30 seconds, expectorate, and repeat 2 additional times.

Repeat the salt water rinses 3-4 times, per day, for 10 days.

## **Chlorhexidine (Peridex)**

Rinse/Swab the infected area
